Holland — The Alliance for Cultural and Ethnic Harmony is saddened to learn of the fear mongering being spread in Port Sheldon Township regarding proposed housing for migrant workers. The Alliance remains strongly supportive of contributions brought to our community by temporary agricultural workers.

Migrant workers bring a dedicated work ethic, they add to the economy of our area and they contribute to the cultural diversity. We are grateful many have found ways to stay here to join us in a stronger and more richly diverse community. We continue to work to provide support and educational programs that may help overcome social attitudes based on fear and ignorance.
